CONOR BOWLES

SKILLS

Coding - C# and the .NET Framework, js, React, html, css, node.js, typescript

Music - Advanced knowledge of the guitar, music theory, and composition.

EDUCATION

Meta – *Professional Certificate in Front-end Development*

I have had a massive interest in computers and technology for the last 10 years and have been using online resources to teach myself to code and work on various personal projects since then. I mainly worked on projects with Unity and c#, and also web applications with typescript and React. I have recently completed the Meta Professional Front-end Developer course to ensure my knowledge is up to scratch with industry standards. I aim to work as a full-stack web developer in the future.

I'm also currently working on my own AI chat-bot creator that will allow users to create customized chat-bots based on prompts they give it. I'm very interested in the field of AI and how it can be applied to create better web applications. This project, amongst others, can be found on my github:

<https://github.com/conorbowles51/>

I also have a personal portfolio website where you can learn more about me and get a brief description of some projects I've worked on! This site can be found here: <https://conorbowles.vercel.app/>

BIMM Dublin – *Ordinary Bachelor of Arts*

Sep 2019 – 2023

I enjoyed my time at BIMM and learned lots about music, and the music industry

EXPERIENCE

Argos, Dublin – *Customer Service Advisor*

OCT 2021 – 2023

- I ensured customers were being looked after and helped maintain the stockroom
- Learned to work as part of a team in a fast paced environment
- Learned to communicate effectively with customers and colleagues
